WHAT WE OFFER

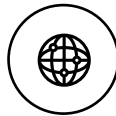

CYBER SECURITY

We offer fully managed cyber security solutions, including next-generation anti-virus, EDR, threat hunting, multi-factor authentication, web filtering, and security awareness training.

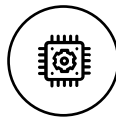

NETWORK INFRASTRUCTURE

Our network infrastructure solutions include both cabled and wireless installations. Our team is expertly skilled in the design of network topologies, from cabinet to point.

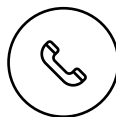

INTERNET CONNECTIVITY

Technology Partners is a registered Internet Service Provider and provides fibre and LTE connectivity to businesses. For businesses that have remote employees, we can assist with home and mobile connectivity.

HARDWARE

We are an authorised reseller of all major brands. Our hardware sales team is able to expertly advise on the correct solution for your requirements. For specialised or temporary applications, we offer rental computer hardware.

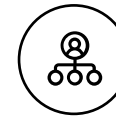

PBX AND TELEPHONES

Our cloud PBX offering includes VoIP systems and telephone hardware for businesses of all sizes. We configure and manage telephone systems including multi-operator switchboard environments and advanced cloud failover solutions.

CLOUD BACKUPS

Backups are fundamental to cyber security in your business. Our cloud backup solutions include malware scanning at the time of backup, as well as full encryption to protect data at rest.

DOMAINS AND HOSTING

Professionally establish and maintain your online presence with a registered domain for your business. We also offer web and email hosting in configurations that are scalable for your business.

DIGITAL DESIGN

Our specialist digital design offering encompasses your entire online presence journey, from concept through to production.

WEBSITE MANAGEMENT

We manage and maintain your website by working closely with you to ensure that your online presence consistently communicates your business' value proposition.

SOCIAL MEDIA MANAGEMENT

By combining the skills of our technical and creative teams, we offer an integrated approach to understanding and leveraging the metrics that drive your business' online presence.
